

Super-slim braille displays for demanding people

SuperVario2 braille displays are beautifully designed, extremely durable, and quick and easy to connect to virtually any device. Best of all, SuperVario2 braille displays will run on battery for up to 25 hours, making them an ideal choice as a portable solution. With two models to choose from (32 or 40 cell), SuperVario2 braille displays are compact and take up very little space. You don't have to sacrifice workspace to add a BAUM braille display. If you're traveling and you need something robust, reliable and portable that fits in your laptop bag then the SuperVario2 is the answer.

- Lightweight, compact and stylish
- Ergonomic design
- Universal interfaces (USB, Bluetooth, HID)
