

## The universal portable full HD magnifier from BAUM

VisioDesk is the world's first portable, foldable, and battery-powered full HD video magnifier for people with visual impairments. Now you can fully enjoy all the benefits of a desktop magnifier wherever you are. Thanks to the specially designed and unique folding mechanism it can be set up and folded away in a few seconds to a very compact size. It magnifies your documents and photos wherever you are, even away from a power outlet, thanks to the built-in batteries that offer over 5 hours of continuous use. When not in use, simply fold it and store it away.

- Lightweight and portable
- Folds and stows in seconds
- Superior image quality, due to full HD camera, signal processing, and screen
- Full HD camera for distance and close-up viewing
- Viewing comfort with 15.6" screen
- More than 5 hours of battery life
- Simple and intuitive operation
- Modern and timeless design

The mobile video magnifier VisioDesk has a 15.6" screen for better viewing of magnified text and images, including large documents and books. Accessing even the smallest fonts is possible, thanks to magnification up to 40x. VisioDesk provides full HD resolution with true color contrast, enhanced view (positive and negative), and a variety of foreground and background color combinations, such as yellow on black. The image optimizer and the auto focus add the finishing touch to the superior image quality.

VisioDesk is compact and lightweight at approximately 10 pounds. The rechargeable battery provides 5 hours of use on a full charge. If you prefer a portable magnifier with a larger screen, and don't want to take up a lot of space while you read, VisioDesk is the solution for you.

## Technical specifications
